AI Trading Coach Terms

FuryFortuna Ltd - AI Trade Coach Terms and Conditions

Version 2.0 - Effective September 2026 - Supersedes all prior versions

1. Scope & Nature of the AI Services

These AI Trade Coach Terms & Conditions ("AI Terms") govern your access to and use of all artificial intelligence features, modules, tools, and content provided by FuryFortuna Ltd ("Company," "FuryFortuna," "we," "us," or "our"), an International Business Company incorporated under the laws of Saint Lucia (IBC Registration No. 2026-00491).

The "AI Trade Coach" includes, without limitation: (a) interactive text chat assistants; (b) real-time voice mode coaching modules; (c) automated trade journal insights and analytical logs; (d) algorithmic risk scoring engines; and (e) automated chart pattern breakdown tools (collectively, the "AI Features" or "AI Services").

The AI Features are supplemental, automated software tools provided strictly for educational, analytical, and informational convenience. By activating, accessing, or interacting with any AI

Features across FuryFortuna web portals or trading interfaces, you confirm that you have read, understood, and agreed to be bound by these AI Terms, which form an integral part of our General Client Terms & Conditions.

2. Absolute Non-Advisory Disclaimer (No Financial, Investment, Tax, or Legal Advice)

> Important Legal Notice - Absolute Non-Advisory Disclaimer
>
> Nothing produced, generated, or communicated by the AI Features - including trade breakdown suggestions, market sentiment scores, technical pattern evaluations, or risk metrics - constitutes financial advice, investment advice, a personal recommendation, portfolio management, a solicitation, or an offer to buy or sell any financial instrument, nor does it constitute tax, legal, regulatory, or accounting advice.

You explicitly acknowledge and agree that:

- Independent Decision Making: The AI Features do not evaluate your personal financial position, account balance, investment targets, risk tolerance, or regulatory status.
- No Execution Capability: The AI Coach is purely analytical. It has no technical access, operational capability, or

authorization to execute, modify, place, or cancel trades or pending orders on your trading account.

- Sole Client Discretion: You execute all trades and trading strategies entirely at your own sole discretion and risk.
- No Reliance on AI Output: AI-generated output must never be relied upon as a substitute for independent market analysis or professional financial advice from a licensed financial advisor.

3. High-Risk Trading & CFD / FX Risk Disclosure

Trading leveraged financial products, including foreign exchange (FX), contracts for difference (CFDs), equities, commodities, and other margined instruments, carries a high level of risk and may result in the loss of all your deposited capital.

> **High Risk Investment Warning**
>
> You should never trade with money you cannot afford to lose. The AI Features do not eliminate, reduce, mitigate, or hedge market risk. Relying on AI insights during volatile market conditions does not guarantee profit or protect against account liquidation.

4. Technical Accuracy, AI Hallucinations & Market Data Latency

4.1 Machine Learning Limitations & Hallucinations

Machine learning models and Large Language Models (LLMs) operate on complex probabilistic algorithms. Consequently, AI outputs may contain errors, omissions, outdated information, structural bias, or complete fabrications ("hallucinations"). Historical statistical summaries or back-tested patterns generated by the AI Coach are purely historical and provide no guarantee of future market performance.

4.2 Market Data Latency & Volatility Disclosures

Market quotes, technical indicators, economic event calendars, and news feeds processed by the AI Features may suffer latency, caching delays, or formatting errors. During periods of high market volatility or major macroeconomic announcements, AI technical pattern displays and real-time voice updates may lag behind live price feeds. Traders must rely exclusively on official trading terminal execution pricing rather than visual or vocal outputs from the AI Coach.

5. Service Limits, Credits & Operational Availability

5.1 Rate Limits & Usage Caps

Access to the AI Features is subject to per-user throughput rate limits, daily query caps, and credit-based usage allocations to ensure platform performance and server infrastructure stability.

5.2 Credit System Terms

Where AI Feature usage relies on purchased or allocated credits, all such credits are non-refundable, non-exchangeable, and non-transferable between client accounts, except where strictly mandated by applicable statutory law.

5.3 Right to Suspend or Modify

FuryFortuna reserves the right, in its sole discretion, to modify, throttle, rate-limit, suspend, or discontinue any feature, tool, model, or component of the AI Services at any time, with or without prior notice, without incurring any financial or operational liability to the user.

6. User Inputs, Data Privacy & Third-Party Processing

6.1 Prompt Content Responsibility

You are solely responsible for all text prompts, images, trade logs, or analytical files uploaded to or processed by the AI Services. You warrant that submitted inputs do not violate third-party rights, privacy laws, or platform integrity rules.

6.2 Data Transmission & Privacy Safeguards

To deliver real-time AI capabilities, FuryFortuna processes and transmits relevant interaction data (including text prompts, trade journal summaries, account metrics, and real-time microphone audio during voice sessions) to authorized third-party AI technology providers via encrypted API protocols.

Privacy Guarantees:

- No Sale of User Data: User prompts, trade logs, and voice data submitted to the AI Coach are never sold to third parties.
- No Public Model Training: Data submitted via API integrations is not utilized by third-party providers to train public foundational AI models.
- Exclusion of Sensitive Records: FuryFortuna does not submit sensitive payment card details, government identification documents, or KYC verification materials to AI processing endpoints.

7. Prohibited Uses & System Security

You expressly agree not to use or attempt to use the AI Features to:

- Illegal or Unlawful Content: Generate, upload, or transmit unlawful, defamatory, harassing, fraudulent, deceptive, or malicious content.
- Model Extraction & Jailbreaking: Attempt to extract, reverse-engineer, decompile, bypass system boundaries, or jailbreak underlying AI models, prompt engineering, or system instructions.
- System Circumvention: Bypass, exploit, or tamper with credit balances, rate limits, usage quotas, or access control protocols.
- Unauthorized Personal Data: Submit personal data of third parties without explicit, lawful consent.

- Commercial Exploitation & Competition: Utilize output from the AI Features to develop, train, benchmark, or market a competing financial software product or service.

8. Intellectual Property Rights

All rights, titles, and interests in and to the AI Services - including all proprietary software algorithms, source code, system prompts, UI designs, brand assets, analytical templates, and model integration frameworks - remain the exclusive intellectual property of FuryFortuna Ltd and its licensors. Nothing in these AI Terms grants you any ownership or intellectual property rights over the AI Features.

9. Third-Party Technology Infrastructure Providers

The AI Features rely on integration with external, specialized artificial intelligence architecture and infrastructure, including (without limitation) Large Language Models operated by Google AI (such as Google Gemini), conversational voice synthesis models operated by ElevenLabs, and cloud hosting providers. You acknowledge that service availability is dependent upon these underlying providers and that FuryFortuna is not liable for external network outages, third-party model deprecations, or API service interruptions.

10. No Fiduciary Relationship

Interaction with the AI Features does not create any fiduciary, advisory, brokerage, agency, or financial client relationship between you and FuryFortuna with respect to the AI output. Your formal account trading relationship with FuryFortuna remains governed exclusively by your separate, signed Client Agreement and primary Terms & Conditions.

11. Limitation of Liability & Exclusion of Damages

To the maximum extent permitted by applicable law, FuryFortuna Ltd, its parent entities, subsidiaries, corporate affiliates, directors, officers, employees, agents, and third-party AI technology providers shall not be liable for any direct, indirect, incidental, consequential, special, reliance, exemplary, or punitive damages whatsoever.

This exclusion includes, without limitation: (a) trading losses; (b) loss of profits; (c) loss of capital; (d) missed market opportunities; (e) data loss or corruption; or (f) platform downtime - arising out of or in connection with your use of, or inability to use, or reliance upon the AI Features, even if FuryFortuna has been advised of the possibility of such damages.

12. Governing Law & Dispute Resolution

These AI Terms, their interpretation, and any non-contractual obligations or disputes arising out of or in connection with them shall be governed by and construed in accordance with the

substantive laws of Saint Lucia (including the International Business Companies Act).

Any dispute, controversy, or claim arising from or relating to the AI Features or these AI Terms shall be subject to the exclusive jurisdiction and legal dispute resolution mechanisms set forth in our primary Client Terms & Conditions.

13. Client Acknowledgement & Affirmation

By enabling, accessing, or utilizing any component of the AI Trade Coach, you confirm that you have read, fully understood, and accepted these AI Terms & Conditions, and that you assume complete legal and financial responsibility for all trading actions taken in connection with AI-generated content.
