Cookie Policy

FuryFortuna Ltd - Cookie Policy

Version 2.0 - Effective September 2026 - Supersedes all prior versions

1. Introduction & Legal Framework

This Cookie Policy governs the use of cookies and tracking technologies by FuryFortuna Ltd ("Company", "FuryFortuna", "we", "us", or "our") across our official website (https://www.furyfortuna.com/) and all related trading portals, subdomains, and web applications (collectively, the "Platform").

This policy is established in compliance with applicable Saint Lucia laws and data protection regulations, alongside international privacy frameworks including the General Data Protection Regulation (GDPR) and the ePrivacy Directive. It outlines how we collect, process, and protect data generated through your interaction with our online trading platform.

2. What Are Cookies & Tracking Technologies?

2.1 Definition of Cookies

Cookies are small text files placed on your computer, smartphone, or tablet device when you access our Website or secure client portals. Cookies enable our platform to recognize your device, maintain authenticated trading sessions, store user settings, prevent unauthorized access, and optimize system performance.

2.2 Associated & Similar Technologies

In addition to standard cookies, FuryFortuna utilizes related web technologies to maintain high operational efficiency and security:

- Web Beacons: Tiny graphic files embedded in web pages or electronic communications to track user engagement, page visits, and email verification.
- Pixel Tags: Code snippets used for operational analytics, conversion tracking, and campaign effectiveness evaluation.
- Local Storage Objects (LSOs): HTML5 local storage and session storage objects utilized to cache client interface preferences and maintain high-speed portal interactions.
- Session Scripts: Client-side execution scripts designed to secure user sessions, enable multi-factor authentication (2FA), and prevent fraud.

3. Cookie Classification by Lifespan

Cookies deployed across FuryFortuna digital properties are classified into two primary operational lifespans:

- Session Cookies: Temporary cookies that remain active only during your active browsing session. They expire automatically when you close your web browser or log out of the trading portal.
- Persistent Cookies: Cookies that remain stored on your device for a predetermined period or until manually deleted. These allow the platform to recognize your device upon subsequent visits and retain persistent user preferences.

4. Functional Categories of Cookies We Use

FuryFortuna categorizes cookies into four main functional groups:

4.1 Essential / Strictly Necessary Cookies

These cookies are mandatory for the operation of our Website, secure client portal, and trading execution infrastructure. They perform critical operational functions, including:

- Session Authentication: User authentication, secure session routing, and continuous account login maintenance.
- Security & Multi-Factor Auth: Verification of Multi-Factor Authentication (2FA) tokens during security-sensitive actions.
- Fraud & DDoS Mitigation: Web Application Firewall (WAF) execution, DDoS protection, bot prevention, and unauthorized access mitigation.
- Financial Transactions: Securing transaction authorization pipelines for deposit and withdrawal requests.

> Operational Requirement
>
> Note: Essential cookies cannot be disabled via our consent management framework, as the trading portal cannot function securely without them.

4.2 Performance & Analytics Cookies

These cookies collect aggregated, anonymized statistical data regarding platform utilization and technical performance, enabling us to optimize user experience:

- Latency & Platform Performance: Monitoring page loading times, order submission latency, and platform error rates.
- Infrastructure Optimization: Evaluating server load distribution, network routing efficiency, and bandwidth allocation.
- Traffic Analytics: Analyzing user navigation patterns, traffic origin channels, and site interactions (e.g., via Google Analytics).

4.3 Functional Cookies

Functional cookies enable enhanced usability by remembering custom user configurations and workspace personalization:

- Language & Regional Settings: Storing selected primary language, regional formatting, and time zone settings.
- Trading Workspace Templates: Saving custom technical chart layouts, technical indicators, color schemes, and dashboard

configurations.

- Login Preferences: Remembering encrypted username handles for rapid client portal access (when expressly opted in by the client).

4.4 Marketing, Targeting & Partner Cookies

These cookies track browsing trends and referral pathways across web properties to deliver tailored communications and evaluate partner networks:

- Targeted Campaigns: Delivering relevant information regarding FuryFortuna financial services and promotional offerings.
- Affiliate & IB Referral Tracking: Attributing client registration and conversion pathways to authorized Affiliate and Introducing Broker (IB) partner networks.
- Frequency Capping: Limiting repeated promotional ad impressions to optimize user engagement.

5. Third-Party Cookies & Infrastructure Providers

FuryFortuna collaborates with trusted third-party service providers to deliver secure infrastructure, analytics, and payment processing capabilities. Authorized third parties may place cookies on your device, governed by their respective privacy standards:

Category	Provider / Service	Purpose & Operational Scope
Security & Infrastructure	Cloudflare Inc.	DDoS protection, SSL/TLS security validation, bot mitigation, and edge network acceleration.
Analytics & UX Optimization	Google Analytics, Hotjar	Aggregated statistical traffic analysis, user interaction heatmaps, and platform usability evaluation.
Payment & PSP Gateways	Authorized Payment Service Providers (PSPs)	Embedded secure payment processing frames, tokenized transaction verification, and fraud prevention.

6. Managing & Controlling Cookie Preferences

6.1 Interactive Cookie Consent Banner

Upon your initial access to https://www.furyfortuna.com/, an interactive Cookie Consent Banner is presented. You may explicitly accept, reject, or customize your preferences for non-essential cookie categories (Performance & Analytics, Functional, Marketing & Partner cookies). You can adjust your consent choices at any time via the cookie management link in the site footer.

6.2 Browser Configuration Controls

You can also manage or block cookie storage directly through your web browser settings. Standard browser navigation paths include:

- Google Chrome: Settings → Privacy and Security → Cookies and other site data
- Mozilla Firefox: Settings → Privacy & Security → Cookies and Site Data
- Apple Safari: Preferences → Privacy → Block all cookies
- Microsoft Edge: Settings → Site permissions → Cookies and site data

> Operational Warning
>
> Operational Impact of Disabling Essential Cookies: If you block or disable Essential / Strictly Necessary Cookies in your browser settings, critical components of the FuryFortuna trading platform, including the secure client cabinet, multi-factor authentication, deposit/withdrawal gateways, and order execution interfaces, will fail to function or become completely inaccessible.

7. Policy Updates & Modifications

FuryFortuna reserves the right to amend or update this Cookie Policy periodically to reflect technological advancements, operational requirements, or changes in international and Saint Lucia statutory privacy obligations. Material updates will be

communicated via publication of the revised document on our Website with an updated effective date. We encourage clients to review this policy periodically.

8. Contact & Data Protection Enquiries
