FurySocial & Copy Trading Terms

FuryFortuna Ltd - FurySocial and Copy Trading Terms and Conditions

Version 2.0 - Effective September 2026 - Supersedes all prior versions

1. Scope & Ecosystem Overview

These FurySocial Terms & Conditions ("FurySocial Terms") govern your access to and use of the social trading layer and community services operated by FuryFortuna Ltd ("Company," "FuryFortuna," "we," "us," or "our"), an International Business Company incorporated under the laws of Saint Lucia (IBC Registration No. 2026-00491).

The "FurySocial Ecosystem" includes, without limitation: (a) automated copy trading services; (b) Percent Allocation Management Module (PAMM) funds; (c) signal provider broadcasts; (d) interactive live streaming and on-demand replays; (e) community profiles, chat rooms, comments, and social reactions; and (f) public leaderboards and follower activity feeds (collectively, the "FurySocial Services").

These FurySocial Terms are incorporated into and form an integral part of the FuryFortuna Client Agreement, Risk Disclosure, and Privacy Policy. In the event of any conflict, the primary Client Agreement shall prevail, except on matters specifically governing FurySocial operational mechanics.

2. User Roles & Account Definitions

Participants across the FurySocial Ecosystem operate in one or more of the following designated roles:

- Strategy Provider: A verified client who publishes trading signals, manages a public strategy, and permits Followers to automatically replicate order instructions in real time.
- PAMM Fund Manager: An authorized portfolio manager who operates a PAMM fund, executing trades on behalf of the capital allocated by participating Investors.
- Follower / Copier: A client who subscribes to a Strategy Provider to automatically copy trades into their individual account.
- PAMM Investor: A client who allocates capital to a PAMM Master Account operated by a PAMM Manager, such capital remaining legally owned by the Investor.
- Broadcaster / Streamer: A verified user who conducts audio, video, or screen-share live broadcasts across FurySocial channels.

3. Eligibility & Account Verification

To access or utilize any FurySocial Services, you represent, warrant, and agree that:

- Age & Capacity: You are at least 18 years of age (or the legal age of majority in your jurisdiction) and possess full legal capacity to enter into binding contracts.
- Jurisdictional Compliance: You are not a resident, citizen, or located in any restricted jurisdiction listed in our Client Agreement or where social trading is prohibited by statutory law.
- Identity Integrity & Non-Impersonation: You shall maintain a real, verified identity for all KYC/AML compliance checks, payout processing, and provider registrations. You are strictly prohibited from impersonating third parties or operating multiple/nominee accounts to manipulate rankings, follower counts, or promotional rewards.

4. Copy Trading Mechanics & Risk Allocation

4.1 Automated Replication Mandate

By subscribing to a Strategy Provider, a Follower explicitly instructs and authorizes FuryFortuna to automatically replicate all open, modification, and close order instructions executed by the Strategy Provider in the Follower's trading account.

4.2 Proportional Lot Scaling & Minimum Lot Thresholds

Trades are copied proportionally based on the equity ratio between the Strategy Provider's account and the Follower's account, or according to custom lot multiplier settings

configured by the Follower. If a calculated proportional copy trade volume falls below the platform's minimum tradable lot size (e.g., 0.01 lots), the order may either fail to execute or default to the minimum tradable lot size, which may significantly alter the Follower's intended risk allocation.

4.3 Disconnection Rights & Position Management

Followers retain the absolute right to pause, adjust parameters, or disconnect from a Strategy Provider at any time via the portal interface. Upon disconnection, the Follower must explicitly select whether to automatically close all copied open positions immediately at current market prices or retain them for manual management.

> ⚠ WARNING - COPY EXECUTION SLIPPAGE & PRICE DISCREPANCIES
>
> Due to execution latency, fast-moving markets, differing account leverage, liquidity spread variations, or platform re-quotes, trades copied in a Follower's account may execute at prices materially different from the Strategy Provider's original order. In volatile conditions, slippage may be substantial. Past performance is strictly not indicative of future returns. Followers bear the entire financial risk of copied executions.

5. PAMM Funds & Asset Management Rules

PAMM funds allow PAMM Investors to allocate capital to a PAMM Master Account operated by a designated PAMM Manager. Investor capital remains legally owned by the individual Investor and is held in segregated client accounts, as set out in the PAMM Terms. Subscriptions, capital allocations, profit/loss distributions, and redemption requests are processed in accordance with scheduled rollover windows displayed within the application.

PAMM Managers act as independent traders and are not employees, agents, or representatives of FuryFortuna. FuryFortuna does not guarantee PAMM fund performance, liquidity maintenance, or execution quality.

6. Strategy Provider & PAMM Manager Obligations

6.1 Eligibility Requirements

To register and maintain an active Strategy Provider or PAMM Manager profile, a client must: (a) complete enhanced KYC verification; (b) maintain minimum required account equity; and (c) consent to the transparent, public disclosure of historical trading performance metrics.

6.2 Performance Fees & High-Water Mark (HWM)

Providers and Managers may charge Followers a Performance Fee (a percentage of net profits generated). Performance fees are calculated and deducted automatically at designated settlement intervals based strictly on the High-Water Mark

(HWM) principle, ensuring fees are charged only on net new trading profits.

6.3 Prohibited Conduct for Strategy Providers

Strategy Providers and PAMM Managers are strictly prohibited from:

- Misleading Claims: Guaranteeing trading returns or publishing fabricated, misleading, or backtested-as-live performance data.
- Market Abuse: Engaging in wash trading, market manipulation, toxic order flow, or artificial volume inflation.
- Off-Platform Solicitation: Soliciting off-platform payments, subscriptions, or external fund transfers from Followers.

7. Trading Signals & Educational Content

Signals broadcast across FurySocial channels are provided strictly for educational and informational purposes. Subscribers bear sole responsibility for deciding whether, when, and how to execute trades based on signals, including position sizing and risk management controls.

8. Live Streaming, Recording & Viewer Consent

Broadcasters explicitly consent to the real-time transmission of their camera, microphone, screen share, and interface displays, as well as the recording, storage, and on-demand replay of streams by FuryFortuna for moderation, compliance, training,

and promotional purposes. Stream viewers acknowledge that public comments, chat messages, and reactions will be visible to other users and captured within archived recordings.

9. Absolute Non-Advisory & High-Risk Investment Disclaimer

> ⚠ STRICT NON-ADVISORY & RISK DISCLAIMER
>
> Nothing on FurySocial - including leaderboards, signals, PAMM metrics, live streams, or community posts - constitutes financial, investment, tax, or legal advice. FuryFortuna does not assess the suitability of copy trading or PAMM allocations for your individual financial situation. You trade and copy strategies entirely at your own risk. Only speculate with capital you can afford to lose completely.

10. Intellectual Property Rights & Content Licensing

Users retain original ownership of content posted, uploaded, or broadcasted on FurySocial ("User Content"). However, by publishing User Content, you grant FuryFortuna a worldwide, non-exclusive, royalty-free, sublicensable, and transferable license to host, store, adapt, reformat, translate, create thumbnails/clips, distribute, and publicly display such content for platform operation, compliance, and marketing purposes.

11. Community Standards & Acceptable Conduct

Users shall not publish, broadcast, or transmit content that involves:

- Financial Misrepresentation: Guaranteed profit claims, pump-and-dump schemes, or coordinated market manipulation.
- Inappropriate Behavior: Hate speech, harassment, discrimination, sexual content, nudity, violence, doxxing, or illegal activity.
- Malicious Content: Malware, phishing links, spam, or unauthorized third-party commercial advertisements.

12. Fair Use, Anti-Abuse & Arbitrage Controls

FuryFortuna strictly prohibits latency exploitation, quote error manipulation, off-market price arbitrage, coordinated wash trading, self-copying, collusion, or bot manipulation intended to artificially inflate copy volume, leaderboards, or rebates. FuryFortuna reserves the right to void, claw back, or withhold commissions, rebates, and profits derived from abusive or non-bona-fide activity.

13. Referrals, Promotions & Rewards Rules

Partner referral links, promotional rewards, and First Time Deposit (FTD) campaigns are subject to strict eligibility criteria. Rewards may be withheld or reversed in cases of self-referral,

related-party collusion, duplicate account creation, or KYC non-compliance.

14. Rankings, Metrics & Leaderboard Adjustments

Displayed statistics (including ROI, drawdown, AUM, and win rates) are calculated on a best-effort basis. FuryFortuna reserves the right to recompute, adjust, hide, or reset rankings, badges, and leaderboards at any time to maintain platform accuracy and integrity, without liability.

15. Platform Moderation, Enforcement & Content Removal

FuryFortuna reserves the right, in its sole discretion and without prior notice, to remove content, terminate live streams, delist strategies or PAMM funds, disqualify users from promotions, and suspend or terminate accounts suspected of breaching these Terms or applicable laws.

16. Copyright Infringement & IP Takedown Protocol

Rights holders who believe their intellectual property has been infringed on FurySocial may submit a formal takedown notice to legal@furyfortuna.com with detailed evidence of ownership. FuryFortuna will process valid notices and terminate repeat infringers.

17. Public Surface Data & Privacy Disclosures

Certain FurySocial features are public by design, including public profile details, performance stats, leaderboard rankings, chat comments, and archived stream recordings. Users are cautioned never to disclose sensitive personal, financial, or KYC information on public surfaces. All personal data processing is governed by the FuryFortuna Privacy Policy.

18. Limitation of Liability

To the maximum extent permitted by law, FuryFortuna and its affiliates, officers, employees, and agents shall not be liable for trading losses, copy execution slippage, strategy provider actions, platform downtime, or indirect, special, or consequential damages arising out of your use of FurySocial Services.

19. Amendments & Governing Law

FuryFortuna reserves the right to amend these FurySocial Terms at any time. Continued use of FurySocial Services after updates take effect constitutes acceptance. These FurySocial Terms are governed by and construed in accordance with the substantive laws of Saint Lucia (including the International Business Companies Act), subject to the dispute resolution provisions in our Client Agreement.

20. User Affirmation & Final Acknowledgment

By accessing, subscribing to, or utilizing any FurySocial feature - including copy trading, PAMM funds, signals, live streams, or community feeds - you confirm that you have read, understood, and agreed to these FurySocial Terms & Conditions, the Client Agreement, Risk Disclosure, and Privacy Policy in their entirety.
